

ATS PRO Project Highlight

CLEARWATER, FL - Founded on March 25, 1866 as Midway Baptist Church, Calvary was the first church in Clearwater and the first Baptist church in Pinellas County. Throughout Calvary's rich history, the church has experienced many transitions, including several name changes, and has been served by generations of pastors. Now it is a place where worship and technology intersect to create an unforgettable experience.

Our 39' wide, 22' high 2.5mm direct view video wall delivers a stunning 4,608 x 2,59 resolution, making every service an immersive visual journey. This series of panels are thin and lightweight, making them versatile for various mounting solutions while still maintaining full front service capabilities.

Special thanks go to our partners from Clair Global for their exceptional collaboration. Their partnership has been instrumental in the successful implementation of this state-of-the-art display.

This project at Calvary Church showcases the versatility and advanced capabilities of the ATS-Pro's LED panels, transforming the worship environment with cutting-edge technology and seamless integration.
