

ATS PRO Project Highlight

CAMBRIDGE, MA - Dive into the CambridgeSide Mall in Cambridge, MA, where our innovative 3-sided ATS-Pro direct view video wall wraps around an elevator, transforming it into a dynamic visual experience for shoppers. This creative endeavor exemplifies how we, the "Masters in the Art of LED," seamlessly blend cutting-edge technology with the retail landscape.

The ATS-Pro dvLED display is meticulously designed to deliver stunning visuals from every angle, captivating mall visitors as they move through the space. Its three-sided configuration maximizes visibility and engagement, ensuring that promotional content, advertisements, and community messages are effectively communicated.

This project at CambridgeSide Mall demonstrates the capabilities of ATS-Pro's indoor dvLED panels. Designed specifically for high-quality indoor environments, these panels provide superior image clarity and vibrant colors, enhancing the visual appeal of the mall's interior. The advanced technology used in these displays ensures consistent performance and long-lasting reliability, making them ideal for retail spaces that demand both aesthetic appeal and functional excellence.

In conclusion, the CambridgeSide Mall project is a testament to ATS-Pro's ability to transform ordinary spaces into extraordinary experiences, leveraging state-of-the-art LED technology to enhance visual communication and customer engagement in retail settings.
