WU PRO SERIES 1.2MM

INDIANAPOLIS, IN - The center of Kroger Broadcast Studio's cutting-edge facility displays our Taylorleds WU 1.2mm direct view LED video wall (20' x 11.25'). Powered by the NovaStar Technology A10s Pro graphic card and enhanced driving ICs, our LED system delivers vibrant and lifelike visuals, ensuring superior image quality. This state-of-the-art video wall represents the pinnacle of visual performance and reliability.

A special thanks to American Sound for their outstanding work on the project, whose expertise ensured a seamless and flawless installation. Additionally, we extend our gratitude to Holloway Sales, LLC for their excellent support and collaboration throughout the process. Together, we have created a visually stunning and technologically advanced showcase that enhances the Kroger Broadcast Studio's capabilities.
