PDT PARTNERS

MANHATTAN, NY - Discover cutting-edge visual technology at PDT Partners, a leading hedge fund's corporate headquarters in Manhattan, NYC. Our ATS-Pro 4K direct view LED video wall delivers stunning visuals that redefine the corporate experience. Known for their pioneering work in algorithmic trading since the 1990s, PDT Partners develops quantitative models to identify market inefficiencies and predict market movements. This complex process requires close coordination among PDTers across the company, and the new video wall enhances this collaboration by providing crystal-clear displays for real-time data visualization and strategic decision-making.

Special thanks to Presentation Products Inc. for their expert integration of the system, ensuring a flawless and seamless installation. We also extend our gratitude to AUDIO ASSOCIATES in Columbia, MD, for their exceptional sales and support throughout the project. ATS-Pro's commitment to delivering top-tier AV solutions has been a cornerstone of this project's success, enhancing PDT Partners' corporate environment with state-of-the-art visual technology.
