

# ATS PRO Project Highlight

**WEST CHESTER, PA** - Check out our impressive direct view LED wall at West Chester University of Pennsylvania. Featuring advanced 1.5mm COB technology, this LED video wall spans 23.94 feet wide and 24.69 feet high, boasting a total resolution of 4608 x 4752 pixels. This project showcases our pioneering adoption of COB direct-view display technology. ATS-PRO has been at the forefront, designing and installing hundreds of ultra-fine pitch walls.

West Chester University, located in West Chester, Pennsylvania, is a leading public university that offers a wide range of undergraduate and graduate programs. Known for its commitment to academic excellence and student success, the university provides a dynamic learning environment that fosters innovation and research. The installation of the dvLED wall enhances the university's capabilities in delivering engaging visual content, supporting both educational and administrative functions.

The dvLED wall at West Chester University serves as a versatile platform for displaying high-resolution content, making it ideal for presentations, events, and digital signage. This cutting-edge technology not only elevates the visual experience on campus but also underscores the university's commitment to integrating advanced technology into its infrastructure, providing students and faculty with state-of-the-art resources.

We extend our sincere gratitude to IMS Technology Services for their expert integration and attention to detail ensured a seamless installation.
